

CROSS REFERENCE LIST
M AND PAC 680 SERIES TO PLANT SERIES

1. GENERAL

1.001 This addendum supplements BSP 000-020-011, Issue 1 and is issued to add Pacific Company practices to the cross reference list of sections renumbered into the Plant Series.

1.002 The cross reference lists only the base number of the sections. Addenda, appendices, and supplements are not listed because they assume main section numbers.

1.003 Most Pacific Company "M" series practices were previously converted to the PAC 680 division but have now been renumbered within the 680 division to conform with the AT&T renumbering plan. This list, therefore, reflects the renumbering of PAC 680 practices along with the remaining PAC "M" series practices.

Old Plant Series No. New Plant Series No.
