Dear Ruth:

RIL - Routing Information Letter No. 42

As you may already know, a new code has recently come into existence. It's a three numeric to be associated with LATA(s) and will cover the non-NPA ranges i.e. 120-199, 220-299, 320-399, etc., and blocked by BOC regional company (RBOC).

In an effort to cover all aspects quickly, Comptrollers, Marketing and Network have agreed that since routing groups initiate the 181B forms when new NXX codes are opened, it would be best for them to associate the LATA code with the new NXX. I have made some assumptions about this which convinced me that this procedure is best:

1. You will know the LATA in which the code is being opened (geographical name, at least).
2. If not, the Engineers will and that they are easily contacted for the necessary information.
3. The LADS coordinators can give the correct LATA number.

These codes are required right now, so on all code openings please see to it that the LATA code is put on the 181B in the "remarks" area.

This arrangement looks as if it might be temporary! As the Rate and Route Divestiture Committee works out more of the detail problems, a different arrangement may be forthcoming. New instructions if required will be issued at that time. Attached is the IL with a list of LADS coordinators and instructions.

As usual, questions should be directed to me on 201-221-4759.

Bill

W. B. Plossl
District Manager - Routing
